

Better Business and a Safer World™

Verint (NASDAQ: VRNT) is a global leader in Actionable Intelligence® solutions and value-added services.

Our solutions capture and analyze complex, underused information sources, such as voice, video and unstructured text, to help our customers make informed and effective business decisions. Our innovative technologies allow our customers to utilize intelligence for a more accurate and complete understanding of challenges and opportunities. And our services provide expert guidance and robust implementations to maximize the value of their Verint investments.

Since 1994, Verint has helped Global 500 organizations — including Bank of Montreal, China (Zhejiang) Mobile, China Pacific Insurance, EMC, National Grid, PNC Bank, Rogers Communications, and many more — improve enterprise performance and make the world a safer place.

Verint Enterprise Intelligence Solutions™

In the enterprise intelligence market, Verint solutions help organizations use the voice of their customers to drive operational excellence, increase customer satisfaction and loyalty, and optimize enterprise performance.

Verint **Enterprise Workforce Optimization Solutions**, including our 5th generation Impact 360® Workforce Optimization™ suite, enable organizations to capture, analyze, and act on customer, business, and market intelligence.

Verint **Voice of the Customer Solutions** unite customer feedback on expectations, preferences, and experiences across communication channels, enabling organizations to drive business strategies and corporate performance.

Our solutions help contact centers, customer sales and service operations, and financial compliance environments address a wide range of goals, including workforce performance, process adherence, product/service enhancements, business process improvements, revenue generation, cost reduction, liability management, financial/regulatory compliance, and a world-class customer experience.

Leadership and Customer Value

Verint is a leader in enterprise and security intelligence solutions, recognized around the globe for market leadership and customer value. Verint is ranked in the top 20 percent of the Software 500, a list of the world's 500 largest software and services companies, and in 2011 joined the broad-market Russell 3000 Index, which tracks the 3,000 largest companies in the United States.

Industry publications, analysts, and research firms consistently cite Verint for vision and execution. Verint has held a leader position in the Gartner Magic Quadrant for Contact Center Workforce Optimization for several consecutive years, and Verint is ranked as a global Security Top 50 company by A&S International. Other recognition includes numerous Frost & Sullivan Customer Value Enhancement awards for Verint enterprise and security intelligence solutions and several CRM Magazine Service Winner and Service Leader awards for Verint customer service. Verint innovations continue to receive industry recognition worldwide, including Company of the Year and Product of the Year honors from numerous organizations.

Committed to Innovation, Positioned for Growth

Our global patent portfolio is indicative of Verint's commitment to innovation, as is the Verint Open Innovation Network™, which fosters invention and technology advancement on an industry scale. This commitment allows us to continually enhance our portfolios with new solutions and analytic capabilities and to attract leading technology, consulting, and implementation organizations to our worldwide partner network. Combined with Verint's financial strength, organic growth, and strategic acquisitions, this commitment to innovation fuels Verint's growth and extends our market leadership.
