

Nextiva

Training and Certification

Nextiva™ Training offers a comprehensive curriculum that addresses a broad range of technical proficiencies, whether you are a first-time user, an IT professional, a system integrator, or a service technician. These courses are designed to enhance your implementation of Verint® products and service applications.

Our instructors are recognized for their high standards of excellence, extensive industry experience, and consultancy and development expertise.

Together with Verint's service and support offerings, our certified training programs help you make the most of the Verint solution.

Learning Options

Nextiva Training offers a training curriculum that includes hands-on lab experience and lectures at a Verint Authorized Training Center. Individual workstations will be set up with the full breadth of equipment to simulate the real-world experience. Class sizes are limited in order to maximize student/instructor interaction and provide students with the ultimate learning experience.

On-site Training is staffed by experts who help assess your technology needs. This cost-effective alternative is perfect for training large groups of employees. Our training teams provide on-site integration and migration planning, deployment services, and guidance on best practices.

Get Started. Get Technical. Get Certified.

Course Offerings

Nextiva Software/Intelligent Edge Devices Installation

This course, which is offered at Verint Authorized Training Centers, provides instruction on Nextiva installation and configuration. Nextiva installation certification can be earned through successful completion of the course and all written and practical exams.

Nextiva Administrator

This course is conducted on site at your facility using your Nextiva system. The course provides instruction on basic Nextiva system configuration and is designed for Nextiva system administrators.

Nextiva Review

This course is conducted on site at your facility using your Nextiva system. The course provides instruction on using the Nextiva Review application and is designed for end users whose job functions only require use of the Review application, excluding system configuration.

Nextiva Analytics

This course is held at a Verint Authorized Training Center and provides detailed instruction on the IntelliView analytics application. Strong knowledge of and experience using Nextiva is required to attend this course.

Verint Loronix Video Manager

We offer a limited suite of courses for Verint Loronix Video Manager® which is similar to the Nextiva course suite. Check our website for availability.

Welcome to the world of Verint Training. For complete training information, including course details and schedules, please visit our website at: <http://www.verint.com/vistraining>.

Verint.

Powering Actionable Intelligence.®

Verint Systems Inc. is a leading global provider of analytic software-based solutions for security and business intelligence. Verint solutions help organizations make sense of the vast voice, video, and data available to them, transforming this information into *actionable intelligence* for better decisions and highly effective performance.

Since 1994, Verint has been committed to developing innovative solutions that help global organizations achieve their most important objectives. Today, organizations in over 50 countries use Verint solutions to enhance security, boost operational efficiency, and fuel profitability.
