The Verint® V3420 RD is an ultra-mini, recessed-mount fixed dome network camera, offering superb image quality up to 30 fps at 2-Megapixel resolution. Due to its compact design (only 60mm in diameter), the camera is able to blend into any indoor surveillance space such as retail, banks, restaurants, offices and other public areas.

Featuring True WDR, the V3420 RD provides superior visibility in high-contrast lighting environments and high-quality full-color surveillance video even under low-light conditions. Armed with Verint’s sophisticated AdaptiveStream technology, which allows the camera to optimize image quality for desired regions, reducing bandwidth while maintaining image quality and storage requirements.

As an all-in-one camera, the V3420 RD is designed for easy installation with PoE power, making setup both quick and simple. The camera is also completely compatible with Verint’s EDGE VMS and Enterprise VMS platforms. With all of these benefits and more, the V3420 RD will fulfill your surveillance needs.
