Verint® S1816e-SP Video Encoder
Featuring H.264 Technology

The Verint® S1816e-SP 16-port video encoder delivers the benefits of H.264 technology at a highly attractive price.

The S1816e-SP is ideal for banking, retail, and other video surveillance applications in which cost, storage, and bandwidth optimization are key. This streamlined video encoder couples good video quality — up to D1/15fps on every port — with the dramatically lower bitrate of H.264 video compression, reducing bandwidth and storage utilization up to 50% over MPEG-4. The S1816e-SP features on-board motion detection, camera tampering detection and storage on the edge — a failover mechanism that ensures video is recorded if connection with management software is lost. Built for low cost of ownership and operation, the S1816e-SP combines the high reliability of Verint’s third-generation multi-port encoders with IT-friendly features, flexible implementation and maintenance, and an environmentally friendly design.

Flexible, Affordable, and IT Friendly
Using the versatile, affordable Verint S1816e-SP, you can capture clear images from up to 16 cameras per encoder. The S1816e-SP supports H.264 and MPEG-4 on all 16 ports and can be configured for dual and triple streaming, so that video can be viewed and stored at different resolutions.

You can manage the S1816e-SP just as you would any other enterprise IT asset. SNMP facilitates integration with IT infrastructures, and an embedded Linux operating system provides superior security and reliability. And you can configure the S1816e-SP using Verint Control Center, SConfigurator™ software, or a Web browser interface with live viewing of video on all 16 ports. The S1816e-SP is fully integrated with Verint Video Management software — centralized device management, automated health monitoring, remote video viewing, and more — and with the Verint EdgeVR® IP-based network video recorder.

Energy Efficient, with a Light Environmental Footprint
The compact, lightweight S1816e-SP has a 1U metal enclosure and comes available with an external power supply for reduced energy consumption. This enterprise-class encoder is also certified compliant with RoHS, UL, CE, and other widely accepted safety and environmental standards and directives.

Advanced Video Technology with Lowest TCO
Verint® is at the forefront of networked video technology, with nearly two decades of experience delivering security intelligence solutions to government and industry worldwide. With the S1816e-SP, Verint provides banking, retail, and other organizations with a versatile edge device built on the latest video technologies, integrated with the industry’s broadest video portfolio, and designed for lowest cost of ownership and operation.

Key Benefits

- 16-port video encoder with H.264 compression, delivering the benefits of advanced video technology at a significantly lower price
- Ideal for multi-camera video surveillance applications that require good video quality, optimal bandwidth and storage utilization, and lower cost of ownership and operation
- Enables organizations to realize the benefits of IP video using their analog cameras
- Reliable and IT friendly, with SNMP, an embedded Linux operating system, and flexible configuration and maintenance
- Compatible with Verint Video Management software and Verint EdgeVR IP-based network video recorder
- Energy efficient and environmentally friendly
## TECHNICAL SPECIFICATIONS

### VIDEO
- **Input**: 16 composites; 1 Vpp into 75 ohms NTSC/PAL; BNC female
- **Up to 3 Streams**: 2 x H.264 and 1 x MPEG-4 streams
- **Performance**: D1/15 fps (H.264), CIF/15 fps (MPEG-4) on all channels simultaneously <or> 2 CIF/15 fps, 2 CIF/15 fps (H.264), CIF/15 fps (MPEG-4) on all channels simultaneously
- **Compression**: H.264 Main Profile (MP) and MPEG-4 Simple Profile (SP)
- **Resolution**: Scalable from CIF (352 x 240 pixels for NTSC; 352 x 288 pixels for PAL) to D1 format (720 x 480 pixels for NTSC; 720 x 576 pixels for PAL)
- **Bandwidth**: Each stream configuration from 30Kbps to 6Mbps
- **Maximum Latency**: 115ms

### NETWORK
- **Interface 1**: RJ-45, Ethernet 10/100/1000 Base-T (for main connectivity)
- **Interface 2**: RJ-45, Ethernet 10/100/1000 Base-T (for maintenance)
- **Protocols**: Transport: RTP/IP, UDP/IP, TCP/IP, RSTP or multicast IP; Others: DNS, NTP, SNMP v1/v2c/v3 (MIB-II); HTTP HTTPS, DHCP client, and 802.1x
- **Security**: SSL-based authentication, password protected, HTTPS

### SERIAL AND USB PORTS
- **Electrical**: Port 1: RS-232 (max. 230Kbps) pluggable screw-terminal strip
  - Port 2: RS-422/485 2/4 wires (max. 230Kbps) pluggable screw-terminal strip
- **Operating Mode**: Transparent serial port supporting any asynchronous serial protocol
- **USB**: 1 USB host port (USB drive not included)

### ALARM
- **Inputs**: 16 dry contacts
- **Outputs**: 4 relay contacts (48V AC/DC at 500 mA max.)

### POWER
- **Input Voltage**: 12V DC +/- 10%
- **Power Consumption**: Max. 23W

### PHYSICAL
- **Enclosure**: 1U metal case with flange mount (black)
- **Dimensions**: 17L x 6.6W x 1.7H in. (430L x 167.68W x 42.6H mm)
- **Weight**: 4.0 lb (1.8Kg)
- **Operating Temperature**: 32ºF to 131ºF (0ºC to 55ºC)
- **Humidity**: 95% non-condensing at 131ºF (55ºC)
- **Firmware**: Embedded Linux-based operating system

### MANAGEMENT
- **Configuration and Firmware Upgrade**: Supported through Verint Control Center (single device and batch mode firmware upgrade), SCConfigurator and Web browser interface (single device firmware upgrade)

### CERTIFICATION AND REGULATION
- **USA**: RoHS compliant, UL, FCC Part 15 (Subpart B, Class A)
- **Canada**: ICES03 class A
- **Europe**: CE marking (EN55022, EN55024)

### MODELS
- **S1808e**: 8-Port video encoder featuring H.264 technology
- **S1808e-A**: 8-Port video encoder featuring H.264 technology with 8 bi-directional audio ports
- **S1816e**: 16-Port video encoder featuring H.264 technology
- **S1816e-A**: 16-Port video encoder featuring H.264 technology with 16 bi-directional audio ports
- **S1816e-SP**: 16-Port video encoder, streamlined version, featuring H.264 technology

### OPTIONAL ACCESSORIES
- **PS1261**: Power supply for S1800e series
- **PS1281**: 19-inch rack mountable power supply for up to 10 S1800e series devices
- **PS1282-10**: 19-inch rack mountable power supply for up to 10 S1800e series devices
- **PS1282-20**: 19-inch rack mountable power supply for up to 20 S1800e series devices
- **PDP10-2**: 19-inch 1U power distribution panel rack mount to connect up to 10 S1800e series devices

### WARRANTY
- **Warranty**: 3-year limited warranty covering parts and labor (for the Americas). Contact your Verint representative for warranty details for other regions.
