Document Revision 1.00

© 1992–2017 Verint Systems Inc. All Rights Reserved Worldwide.
Confidential and Proprietary Information of Verint Systems Inc.

All materials (regardless of form and including, without limitation, software applications, documentation, and any other information relating to Verint Systems, its products or services) are the exclusive property of Verint Systems Inc. Only expressly authorized individuals under obligations of confidentiality are permitted to review materials in this document. By reviewing these materials, you agree to not disclose these materials to any third party unless expressly authorized by Verint Systems, and to protect the materials as confidential and trade secret information. Any unauthorized review, retransmission, dissemination or other use of these materials is strictly prohibited. If you are not authorized to review these materials, please return these materials (and any copies) from where they were obtained. All materials found herein are provided "AS IS" and without warranty of any kind.

Verint Systems Inc. does not warrant, guarantee or make any representation regarding the use or the results of the use of the information, links, tools, and materials in terms of the accuracy, reliability, quality, validity, stability, completeness, currentness, or otherwise of its content or products. The entire risk as to the use, results and performance of information, links, tools and materials provided or referenced herein is assumed by the user. Verint Systems Inc. shall not be liable for damages resulting from the use, misuse or unlawful use of the information, links, tools, and materials contained or referenced herein.

Any third party technology that may be appropriate or necessary for use with the Verint Product is licensed to you only for use with the Verint Product under the terms of the third party license agreement specified in the Documentation, the Software or as provided online at <http://verint.com/thirdpartylicense>. You may not take any action that would separate the third party technology from the Verint Product. Unless otherwise permitted under the terms of the third party license agreement, you agree to only use the third party technology in conjunction with the Verint Product.

The Verint Systems Inc. products are protected by one or more U.S., European or International Patents and other U.S. and International Patents and Patents Pending.

Open Source Attribution

Certain components of this Software or software contained in this Product (collectively, "Software") may be covered by so-called "free or open source" software licenses ("Open Source Components"), which includes any software licenses approved as open source licenses by the Open Source Initiative or any similar licenses, including without limitation any license that, as a condition of distribution of the Open Source Components licensed, requires that the distributor make the Open Source Components available in source code format. A license in each Open Source Component is provided to you in accordance with the specific license terms specified in their respective license terms. EXCEPT WITH REGARD TO ANY WARRANTIES OR OTHER RIGHTS AND OBLIGATIONS EXPRESSLY PROVIDED DIRECTLY TO YOU FROM VERINT, ALL OPEN SOURCE COMPONENTS ARE PROVIDED "AS IS" AND ANY EXPRESSED OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE DISCLAIMED.

Any third party technology that may be appropriate or necessary for use with the Verint Product is licensed to you only for use with the Verint Product under the terms of the third party license agreement specified in the Documentation, the Software or as provided online at <http://verint.com/thirdpartylicense>. You may not take any action that would separate the third party technology from the Verint Product. Unless otherwise permitted under the terms of the third party license agreement, you agree to only use the third party technology in conjunction with the Verint Product.

About Verint Solutions

Verint is the leader in enterprise workforce optimization software and services. Its solutions are designed to help organizations of all sizes capture customer intelligence, uncover business trends, discover the root cause of employee and customer behavior, and optimize the customer experience. From contact centers to remote office, branch and back-office operations, its award-winning, next-generation Impact 360® Workforce Optimization suite is the industry's most unified solution set—featuring quality monitoring and recording, workforce management, customer interaction analytics (speech analytics, data analytics and customer feedback surveys), desktop and process analytics, performance management, eLearning and coaching. Impact 360 helps improve the entire customer service delivery network, powering the right decisions to help ensure service excellence and transform organizations into customer-centric enterprises.

About Verint Systems Inc.

Verint® Systems Inc. is a global leader in Actionable Intelligence® solutions and value-added services. More than 10,000 organizations in over 150 countries use our workforce optimization and security intelligence solutions to improve enterprise performance and make the world a safer place. For more information, visit www.verint.com.
