

Virtual Learning Environment for Verint IP Video Solutions

Part of Verint® University™, the Verint Learning Center™ is a dedicated platform that provides customers and partners access to a rich source of on-demand certification training and technology resources designed to transfer knowledge, build competencies and maximize the value of their Verint investments.

Learn Your Way, the Verint Way

The Verint Learning Center's curriculum for Verint video intelligence solutions offers self-paced online learning, virtual classroom sessions, instructor-led training and both live and recorded webcasts. By centralizing and automating the entire learning process, the Verint Learning Center helps customer and partner organizations meet new physical security requirements, respond and scale to opportunities and challenges, and react to changing business objectives in a variety of vertical environments.

Knowledge is Power

The Verint Learning Center is here to support you. Offering educational curriculums for an array of solutions—including the Verint Enterprise Video Management Software (VMS) and Verint EdgeVR® networked video recorder—the Verint Learning Center features a wide range of content and course offerings to help you obtain different levels of technical expertise and benefit from more efficient deployments, a deep understanding of product capabilities and the confidence to architect optimal solutions.

Key Benefits

- Evolve your knowledge
- Gain new skills
- Test proficiencies
- Learn at your own pace
- Get certified

On-Demand, 24/7

With no travel costs, no downtime, and no waiting, the Verint Learning Center provides users with robust capabilities that include multimedia eLearning certification courses, comprehensive technology and sales training, personalized learning profiles, automated registration and enrollment processing, and more.

With an intuitive interface and easy to navigate system, the Verint Learning Center is designed to improve competencies, accelerate business processes and drive competitive advantage for systems integrators, end-users, resellers, technical installers and support engineers.

Gain a Powerful Advantage with Nextiva Certification

In today's complex marketplace having the ability to prove your skills is valuable. That's the thinking behind Nextiva Certification, an accreditation that can boost your company's credibility within the physical security industry. Allow your team to take their skills to the next level and gain certification through The Verint Learning Center. The Nextiva Certification program includes detailed product training modules, performance-based testing and a written exam. These are designed to help assess knowledge of the Nextiva portfolio, as well as highlight important features and common tasks within the solution. After successful completion of the course, certification status will be obtained.

Know Now – Verint Learning Center

Verint is a global leader and is committed to helping customers and partners master skills, expand knowledge and expertise, and achieve the technical competencies required to leverage the cutting-edge capabilities of IP video solutions, while taking their businesses to the next level. The Verint Learning Center is a powerful, easy to navigate, self service portal that instantly delivers the power of learning via rich, relevant, on demand content.
