The Verint® V4530 FDW is a brand-new professional H.264 high-efficiency outdoor dome network camera, offering 30fps @ 3-Megapixel with outstanding image quality.

Verint’s sophisticated AdaptiveStream technology enables the camera to optimize resolution for a desired object or area and therefore to maximize efficiency of bandwidth usage. The V4530 FDW can reduce both bandwidth and storage consumption while maintaining high image quality.

As a professional day/night camera, the V4530 FDW is also equipped with True WDR, empowering users to enjoy superb image-detail in any lighting condition. Additionally, IP67-rated housing ensures the ability of these advanced cameras to withstand rain and dust, thus guaranteeing smooth operation even under a multitude of harsh weather conditions. The camera’s IK10-rated housing can also provide protection against acts of vandalism and other impacts. Finally, a wide operating temperature range further enhances the performance and reliability of the V4530 FDW in both extremely cold and warm weather, even while using PoE.
