On request by Verint, Customer shall provide to Verint certification of the foregoing, as applicable to Customer.

**10 GOVERNING LAW; FORUM.** In the event Customer is an entity or agency of any government, to the extent the application of laws stated in this Section would be in contravention with the laws of that government, and without opportunity to contract otherwise, then notwithstanding the remaining terms in this Section, the laws and jurisdiction applicable to that government shall instead apply, but solely to the extent and with effect mandated by such laws.

In respect of the each Trading Region, the following provisions apply:

**11 REMEDIES.** Customer acknowledges that remedies at law may be inadequate to provide Verint with full compensation in the event of Customer's material breach of this Agreement, and that Verint shall therefore be entitled, without bond or other security obligation, to seek injunctive relief in the event of any such material breach. Customer agrees to cooperate with Verint, and to obtain all required consents, in the event a third party seeks to compel Verint to disclose Customer Data through any legal process. Verint shall be entitled to charge Customer for all costs and expenses (including reasonable attorney fees) incurred complying with or defending against such legal process, and on a time and material basis for any work performed to produce such Customer Data. To the extent legally permitted, Verint shall provide Customer with advanced notice to allow Customer to take reasonable and lawful action to minimize the degree of such disclosure or to seek appropriate protective orders. Notwithstanding any other terms in this Agreement, Verint shall not be liable to any party for damages resulting from disclosure of Customer Data under such legal process.

**12 WAIVER / SEVERABILITY.** The failure of Verint to exercise or enforce any right or provision of this Agreement shall not constitute a waiver of such right or provision. If any provision of this Agreement is for any reason held unenforceable or invalid, then this Agreement shall be construed as if such provision were not contained in this Agreement.

**13 PUBLICITY.** Except as provided herein or required by law, Customer shall not publicize or disclose the existence or terms of this Agreement to any third party without the prior written consent of Verint. Verint may use Customer's name and logo (so long as in accordance with any mark guidelines provided by Customer to Verint) in Verint's promotional materials, including, without limitation, press releases, customer lists, and presentations to third parties.

**14 FORCE MAJEURE.** Except for obligations of confidentiality, payment, and compliance with laws, neither party shall be liable for any delay or failure in performing hereunder if caused by any factor beyond the reasonable control of the party, including force of nature, war, riot, civil action, terrorism, labor dispute, malicious acts or denial of service by a third party, or failure of telecommunication systems or utilities. Performance shall be deferred until such cause of delay is removed, provided that the delayed party promptly notified the other party after having actual knowledge of any such occurrence.

**15 ASSIGNMENT.** Except to the extent such rights cannot be restricted by applicable law, Customer cannot assign, sublicense, or transfer this Agreement without the prior written consent of Verint, and any such attempt by Customer to sublicense, assign or transfer any rights, duties, or obligations hereunder is null and void, and subject to Verint's right to immediately terminate this Agreement.

**16 ENTIRE AGREEMENT / MODIFICATIONS.** Except as otherwise specified in this Section, this Agreement, plus the terms on any Order signed in hardcopy form by both Customer and Verint, comprises the entire agreement between Customer and Verint, and supersedes any other agreement or discussion, oral or written, with respect to the subject matter of this Agreement, and may not be changed except by a written agreement signed in hardcopy form between the parties. Preprinted, additional or conflicting provisions on Customer's purchase order or on either party's acknowledgement forms, whether presented before or after the terms of this Agreement, and including any integration clauses contained therein, shall not apply unless agreed to by both parties in writing signed in hardcopy form. Customer agrees that Customer's use of the products and services provided by Verint signifies Customer's agreement to all terms and conditions of this Agreement. In the event the parties to this Agreement have executed, in hardcopy form, a separate agreement, or other electronically signed agreement covering the same subject matter, that separate agreement shall remain in effect, govern and control for that subject matter, and this Agreement shall govern and control for all other subject matters contemplated herein. Any reference to a law or statute in this Agreement shall be deemed to include any amendment, replacement, re-enactment thereof for the time being in force and to include any by-laws, statutory instruments, rules, regulations, orders, notices, directions, consents, or permissions (together with any conditions attaching to any of the foregoing) made in respect thereof.

With regards to the on-premise components and related Documentation, Verint grants to Customer, and Customer accepts, a nonexclusive, nonassignable, and nontransferable limited license during the Access Term, to use the on-premise components and related Documentation solely in conjunction with the SaaS Services for Customer's internal business purposes, and subject to the terms and conditions of this Agreement. With respect to the Documentation, Customer may make a reasonable number of copies of the Documentation applicable to the SaaS Services solely as reasonably needed for Customer's internal business use in accordance with the express use rights specified herein. **3 ACCESS TERM.** Unless otherwise specified on the Order, an Access Term shall commence upon the date Verint accepts the applicable Order and shall continue for twelve (12) months thereafter. In the event Customer places additional Orders for the same SaaS Service, Verint may adjust the duration of the additional Access Terms to co-terminate with the Access Terms for that SaaS Service. Each Access Term is non-cancelable, and upon expiration shall automatically renew for additional annual terms at Verint's then current rates, unless either party provides the other with no less than sixty (60) days prior written notice of its intent to not renew.

### **4 VERINT RESPONSIBILITIES.**

**4.1 Support.** As part of the SaaS Services, during any Access Term and subject to payment of all fees, Verint shall, either directly, or through its applicable third party vendor(s), provide support for the Hosted Environment and SaaS Services in accordance with the terms and conditions of this Section.

**4.2 Updates.** In addition to establishing and maintaining the Hosted Environment, Verint shall maintain the components of the Hosted Environment with all current Updates that Verint deems necessary for the SaaS Services. Verint shall use commercially reasonable

efforts to implement any required Error Corrections. Access to the SaaS Services and maintenance of the Hosted Environment shall be in accordance with the Service Levels specified in this [Section 4](#). Customer's Designated Employees shall have access to Verint technical support Personnel through Verint's standard telephone, email and/or web support services during the support hours applicable to the specific SaaS Services subscribed to by Customer. The contact information for Verint technical support personnel, support hours applicable to the SaaS Services, and Error type classifications and response times can be found at <https://www.verint.com/wp-content/uploads/VGS-Plan-all-regions.pdf>.

**4.3 On-Premise Components.** With respect to any on-premise components, Customer shall be responsible for the installation and configuration of the on-premise components in the Customer Environment. Verint shall provide technical support for on-premise components through Verint's standard telephone, email and/or web support services during the support hours specified in the Maintenance and Support Plan under the Premium Plan.

**4.4 Uptime.** Verint will use commercially reasonable efforts to ensure that the Hosted Environment will be available 24 hours per day, 7 days per week, excluding any Scheduled Downtime. Daily system logs will be used to track Scheduled Downtime and any other Hosted Environment outages. Verint will provide Customer with a minimum of seven (7) days advance notice of Scheduled Downtime, and post a notice on the application log-in screen to notify Customer administrator of any Scheduled Downtime that will exceed two (2) hours. The duration of any downtime is measured, in minutes, as the amount of elapsed time from when the Hosted Environment is not accessible or does not permit Customer to log on, to when the SaaS Services permits Customer to log on and access the Hosted Environment.

**4.4.1 Service Level Credits.** If Verint does not meet the Uptime Percentage levels specified below, Customer will be entitled, upon written request, to a service level credit ("**Service Level Credit**") to be calculated, with respect to the applicable Hosted Environment, as follows:

- If Uptime Percentage is at least 99.95% of the month's minutes, no Service Level Credits are provided; or
- If Uptime Percentage is 99.75% to 99.94% (inclusive) of the month's minutes, Customer will be eligible for a credit of 5% of a monthly average fee derived from one-twelfth (1/12th) of the then-current annual fee paid to Verint; or
- If Uptime Percentage is 99.50% to 99.74% (inclusive) of the month's minutes, Customer will be eligible for a credit of 7.5% of a monthly average fee derived from one-twelfth (1/12th) of the then-current annual fee paid to Verint; or

Customer shall only be eligible to request Service Level Credits if Customer notifies Verint in writing within thirty (30) days from the end of the month for which Service Level Credits are due. All claims will be verified against Verint's system records. In the event after such notification Verint determines that Service Level Credits are not due, or that different Service Level Credits are due, Verint shall notify Customer in writing on that finding. Service Level Credits will be applied to the next invoice following Customer's request and Verint's confirmation of available credits. Service Level Credits shall be Customer's sole and exclusive remedy in the event of any failure to meet the Service Levels. Verint will only provide records of system availability in response to Customer's good faith claims.

**4.4.2 Exceptions.** Customer's right to receive Service Level Credits, and the inclusion of any minutes in the calculation of Unscheduled Downtime are conditioned upon: **(i)** prompt payment by Customer of all fees, **(ii)** Customer's performing all of Customer's obligations (including, without limitation, establishing and maintaining the Customer Environment), **(iii)** Customer's continued compliance with [Section 5](#), **(iv)** Customer agreeing to use of the most current version of the SaaS Service, and/or **(v)** the Unscheduled Downtime not being caused by the failure of any third party vendors, the Internet in general, or any emergency or force majeure event, Customer's use of the SaaS Services in excess of Customer's SaaS Access Rights, or issues caused by the Customer Environment or Customer specific configurations not expressly contemplated in the Documentation.

**4.5 Backup and Recovery of Data.** As a part of the SaaS Services, Verint shall maintain a backup of all Customer Data that Verint is required to retain as a part of the SaaS Services. In the event the Customer Data becomes destroyed or corrupt, Verint shall use commercially reasonable efforts to restore all available data from backup, and remediate and recover such corrupt data.

## **5 CUSTOMER RESPONSIBILITIES.**

Verint may remove any violating content posted on the SaaS Services or transmitted through the SaaS Services, without notice to Customer.

**5.2 Passwords.** All access codes and passwords are personal to the individual to which it is issued. Customer and Customer's Personnel are responsible for maintaining the confidentiality and security of all access codes and passwords issued, and ensuring that each access code and password is only used by the individual authorized. To the extent Verint assigned Customer with administrative rights to create access codes and passwords for Customer's Personnel, Customer shall be responsible for issuing such access codes and passwords.

**5.3 Indemnity.** Customer, at Customer's sole expense, shall defend, indemnify and hold harmless Verint from any action based upon a claim resulting from any breach of Sections 5.1 by Customer, Customer's affiliates or Personnel of either, and shall reimburse Verint for all damages, costs, and expenses (including reasonable attorneys' fees) incurred by Verint pursuant to any such actions.

**5.4 Customer Environment.** Customer is responsible for the establishment of the Customer Environment necessary for Customer's use of the SaaS Services, and for the installation and configuration of the on-premise components in that Customer Environment, each as Verint may specify in the Documentation. Additionally, Customer acknowledges and agrees that Verint is not responsible for obtaining, licensing or selling any hardware, peripherals or third-party software or interfaces needed to prepare or maintain the Customer Environment, or backing up such Customer Environment.

**6 INVOICING.** For any Orders placed on Verint directly by Customer, Verint shall invoice Customer for the SaaS Access Fee for the initial Access Term Billing Period, and any fixed fee Professional Service Fees applicable to such Order upon Verint's receipt and acceptance of the Order. Use of the Software by Customer, Customer's Personnel or any other party authorized hereunder shall at no time exceed the total use rights granted in applicable Orders. With respect to any third party applications provided by Verint with the Licensed Products, use of those third party applications is expressly limited to use in conjunction with the Licensed Products,

and may not be used independent of those Licensed Products. Customer may change the location of a site designated in an Order; provided Customer complies with all applicable laws, and provides Verint with notice, including information regarding the current site, new site and Licensed Product and quantity of licenses. Customer may make a reasonable number of copies of the Software solely as needed for back-up and archival purposes, and of the Documentation solely as needed for Customer's internal business purposes as set forth herein.

**Run-Time Software.** Any software included with the SDK licensed to Customer hereunder, where such software is provided in object code form and required for use of an Interface Application with a Verint product or service.

For the purposes of this Agreement, the SDK shall be considered a Verint “Licensed Product” for all purposes.

**2 LICENSE.** Verint grants to Customer, and Customer accepts a nonexclusive, nonassignable, and nontransferable limited license to use the SDK specified on an Order solely by Customer’s Personnel for Customer’s internal business operations to create Interface Applications for use in accordance with and subject to the terms and conditions of this Agreement. Use of the SDK by Customer, Customer’s Personnel or any other party authorized hereunder shall at no time: **(i)** exceed the total use rights granted in an Order, or **(ii)** be used for any purpose other than the integration of a Verint product or service to a product provided by Customer or its third party licensors.

### **3 INTELLECTUAL PROPERTY.**

**3.1 Ownership.** The parties acknowledge and agree that **(i)** Verint owns or has rights to license the SDK, and that all Intellectual Property Rights in and to the Verint Intellectual Property, and derivatives thereto are and shall remain vested in Verint or its licensor(s), and **(ii)** except to the extent the Interface Application contains any Verint Intellectual Property, Customer owns all other Intellectual Property Rights in and to the Interface Application. Notwithstanding the foregoing, nothing in this Agreement shall prevent Verint and/or other Verint partners and customers from using an SDK to independently develop interface applications, including interface applications that are the same or similar to any Interface Applications developed hereunder. To the extent such independently developed interface applications would infringe any Intellectual Property Rights arising from Interface Applications developed hereunder, Customer grants to Verint an unlimited, worldwide perpetual license in and to the Intellectual Property Rights necessary for Verint and its other partners and customers to develop and use the same and/or similar interface applications.

**3.2 Open Source.** Customer represents and warrants that **(i)** any Customer products (including any if its third party licensor products) applicable to this Agreement, and any Interface Application developed by or on behalf of Customer under this Agreement, will not contain any Open Source Code which would **(a)** create obligations, or purport to create obligations for Verint with respect to any Verint product or service or Verint Intellectual Property, or **(b)** grant, or purport to grant, to any third party any rights or immunities in, to or under Verint product, service or any other Verint Intellectual Property, and **(ii)** to the extent of any Open Source Code contained in any Customer products or any Interface Applications, Customer has complied with all requirements of those Open Source Code license(s) pursuant to which it obtained source code which may have been used to develop, and/or is contained in, such products and the Interface Application and that each shall be compliant with all such Open Source Code license requirements.

The license granted hereunder to use the Mobile App is contingent upon Customer’s purchase (either directly, or indirectly through the relevant

Verint product or service licensee) of connectivity licenses from Verint for the right to connect the Mobile App to the Verint product and/or service, and then that Mobile App license is only valid for so long as Customer continues to have a valid license or right to the other Verint product or service.

**3 RESTRICTIONS.** Customer shall not install, use or permit the Mobile App to exist on more than one Mobile Device at a time or on any other mobile device or computer, other than by means of separate downloads of the Mobile App, each of which is subject to a separate license (this restriction however does not limit Customer's right to reinstall the Mobile App on the specific Mobile Device for which it was downloaded).

**4 SUPPORT AND RESPONSIBILITIES.** Verint has no obligation to maintain or support any Mobile App. Verint may, without further notice to Customer, discontinue the availability of the Mobile App, and may periodically access Customer's Mobile Device remotely to update, modify, add to or upgrade the Mobile App. Such updates, modifications, additions or upgrades may cause data loss or other issues. Customer is solely responsible for regularly backing Customer's data to prevent this from occurring. Customer acknowledges and understands that certain services or aspects of the Mobile App require and utilize phone service, data access or text messaging capability. Carrier rates for phone, data and text messaging may apply and Customer is responsible for any such charges.

In addition to the foregoing, if Customer is accessing a Portal Service:

- a.** For Verint partner program materials or other information made available by Verint to partners and resellers of Verint, Customer represents and warrants that it is a party to a valid and active partner or reseller agreement with Verint, and Customer acknowledges and agrees to cease and desist all access to the Portal Services and delete or destroy all Content obtained from the Portal Services upon termination of that agreement.
- b.** For Support Services, Customer represents and warrants that Customer is a party to a valid and active Order with Verint for such services, and Customer acknowledges and agrees to cease and desist all access to the Portal Services upon termination or expiration of such Order.

**1.3 Hosted Subscription Services.** Any SaaS or hosting services subscribed to by Customer from Verint.

**1.4 Industry Standards.** Generally accepted standards applicable to the performance obligations of a party with respect to a product or service. Industry Standards can include in part or in whole frameworks published by the National Institutes for Standards and Technology (NIST), International Organization for Standardization, ISACA, Payment Card Industry Security Standards Council and other internationally recognized standards organizations.

**1.5 Personal Data.** Any information relating to an identified or identifiable natural person; an identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person.

**1.6 Privacy Laws.** Laws, as applicable, concerning the regulation of personal information about individuals sufficient to identify such individuals.

**1.7 Process(ing)(ed).** Any operation or set of operations that is performed on Personal Data, including, without limitation, collection, recording, retention, alteration, use, disclosure, access, transfer or destruction.

**1.8 Verint Personnel.** Each Verint employee or subcontractor under obligations of confidentiality and nondisclosure which performs on behalf of Verint hereunder.

**2 GENERAL SECURITY TERMS.** Verint is committed to helping protect the security of Customer Data, and has implemented, and will maintain and follow appropriate technical and organizational measures that conform to Industry Standards intended to protect Customer Data against accidental, unauthorized or unlawful access, disclosure, alteration, loss, or destruction. Verint may modify any of its policies, process or procedures at any time and without obligation to notify or update this Annex, provided such modifications provide substantially similar or greater protections than those provided for herein. Except as otherwise specified in Section 3, the following terms and conditions in this Section 2 apply to all performance obligations under the Agreement.

**2.1 Access Controls.** Verint implements Industry Standard access control methodologies, which rely on policy, process, and logical controls to help prevent unauthorized access to systems and data under Verint's control. These access controls include no less than the following:

- Verint uses the "Principle of Least Privilege" model for restricting access to systems and data, and regularly reviews access rights granted to Verint Personnel.
- Verint Personnel each have a unique user ID and personal secret password for accessing internal networks, equipment and data. Verint shall maintain policies concerning the maintenance of password secrecy. Verint Personnel access rights must be suspended within twenty-four (24) hours of employment termination, and modified within forty-eight (48) hours when Verint Personnel roles and/or responsibilities are changed.
- Verint maintains a password policy which, at a minimum, complies with the following standards: (i) passwords must not employ any structure or characteristic that results in a password that is predictable or easily guessed; (ii) passwords must include at least three (3) of the following character sets, in accordance with password policy settings: (a) an English uppercase character (A – Z); (b) an English lowercase character (a – z); (c) a westernized Arabic numeral; and (d) a non-alphanumeric special character from the following character set: !, \$, #, %; (iii) passwords must be changed at least every one hundred and eighty (180) days; and (iv) account lockout must occur after a maximum of five (5) failed password entry attempts. Re-enabling of locked accounts must require extended time based delay, or interaction with a security administrator or help desk function. All password changes must be accomplished through secure procedures.
- Multi-factor authentication processes must be utilized for any access to systems containing Customer Data. All passwords must be stored and transmitted using Encryption Standards.
- User sessions must expire and require the re-entry of a password if idle by more than (i) twenty (20) minutes for administrator consoles, and (ii) sixty (60) minutes for all other systems and session types.
- For any facilities hosting Customer Data, such facilities shall have implemented electronic access controls to enter such facilities, and further access controls for entering specific areas where such Customer Data is physically resident. Verint shall maintain processes to validate the identify of individuals prior to issuing identification and access badges, and shall maintain processes for issuing visitor badges, logging such issuance, and escort requirements for such visitors. Such logs shall be maintained by Verint for no less than six (6) months from issuance.

**2.2 Data Controls.** In its performance obligations, Verint does not require access to Customer systems or data, and Customer shall take commercially reasonable efforts to prevent Verint from accessing Customer systems and data. Where Customer provides Customer Data to Verint for professional services or support purposes, Customer shall take commercially reasonable efforts to redact or remove Personal Data prior to providing that Customer Data to Verint. Where possible, such services shall be delivered via screen share or telephone with no data transferred to Verint. If it is necessary to transfer Customer Data to Verint, the following shall apply:

- Customer shall only use Verint approved communication channels for providing Customer Data to Verint. With respect to the storage of such Customer Data by Verint and any further transmission of that Customer Data by Verint, Verint shall ensure such Customer Data is protected using Encryption Standards.
- In the event Verint makes backups of such Customer Data, all backups of Customer Data shall be encrypted on backup media using Encryption Standards.
- Customer Data may only be stored on portable media, including laptops, DVD, CD, magnetic tape media, removable hard drives, USB drives or similar portable storage, if Encryption Standards are used on that portable media.
- Except as specified otherwise in the Agreement, or applicable Order or SOW, Customer Data may be transferred by Verint to, and stored and Processed in, the United States or any other country in which Verint or its affiliates or subcontractors maintain facilities. Customer appoints Verint to perform any such transfer of Customer Data to any such country and to store and Process Customer Data in order to provide services to Customer.
- Verint shall: (1) process such Customer Data only in accordance with the reasonable instructions of Customer, (2) treat such Customer Data as the Confidential Information of Customer, (3) promptly notify Customer of any unauthorized or unlawful Processing of that Customer Data of which it becomes aware, (4) except as otherwise agreed, promptly delete, or at Customer's option, return such Customer Data when no longer needed for the provision of those services, and (5) not knowingly place Customer in breach of any Privacy Laws.

**2.3 Operational Controls.** Verint shall maintain operational controls sufficient to enable Verint's satisfaction of its performance obligations in this Section 2, including, without limitation, the following:

- Maintain a dedicated information security function to design, maintain and operate security in line with Industry Standards. This function shall focus on system integrity, risk acceptance, risk analysis and assessment, risk evaluation, and risk management.
- Maintain a written information security policy that is approved by the Verint management team and published and communicated to all Verint Personnel and relevant third parties.
- Provide security awareness training at least annually to its employees, and maintain records of training attendance for no less than one (1) year.
- Conduct vulnerability assessments and/or penetration tests of networks, systems, applications and databases where Customer Data is located at rest, in transit and in use. Verint shall triage identified vulnerabilities and remediate or mitigate vulnerabilities in accordance with Industry Standards.
- Maintain appropriate authentication system(s) to authenticate and restrict access to Verint systems and networks to valid users.
- Install and maintain antivirus software on all servers and computing devices involved with Processing activities, and use other malware detection techniques where reasonably required. Such antivirus software shall be updated on a daily basis, or as otherwise provided by the antivirus software manufacturer.
- Maintain physical security measures with respect to Verint facilities to help prevent and detect physical compromise, including, without limitation, use of identification badges, smart card or other electronic or physical identity verification systems, alarms on external doors, and CCTV on all entrances / exits to such facilities. Verint shall periodically review access records and CCTV video to ensure access controls are being enforced effectively, with any discrepancies or unauthorized access investigated immediately.
- With respect to Verint internal networks, ensure perimeter networks are physically or logically separated from internal networks containing Customer Data, establish and configure firewalls in accordance with Industry Standards, use network intrusion detection systems as a part of network security, and restrict and control remote network access.
- Complete diligent review of any Verint subcontractors that will have access to Customer Data, and require such subcontractors contractually commit to substantially similar terms and conditions as those specified in this Annex, or terms and conditions that Verint reasonably determines as providing substantially similar protection. With respect to any performance subcontracted by Verint, Verint remains responsible for its subcontractors' compliance with Verint's performance obligations in the Agreement.

**2.4 Availability Controls.** Verint will maintain contingency planning policies and procedures defining roles and responsibilities on proper handling of contingency events. This shall include a business continuity and disaster recovery plan intended to facilitate the restoration of critical operations and processes which would allow for Verint's continued performance of its obligations hereunder. Such plan shall be periodically reviewed, updated and tested by Verint.

**2.5 Application Controls.** Verint shall implement and conform its software development practices to applicable Industry Standards relative to the functionality to be performed by the specific Verint product offering. Verint shall maintain software development practices which satisfy the following:

- Use commercially reasonable measures to detect product vulnerabilities prior to release. These measures may include manual test scripts, test automation, dynamic code analysis, static code analysis, penetration testing, or other measures chosen by Verint. Verint shall update procedures and processes from time to time to improve detection of vulnerabilities within its products.
- Verint's developers shall not intentionally write, generate, compile, copy, collect, propagate, execute or attempt to introduce any computer code designed to self-replicate, damage or otherwise hinder the performance of any systems or network.
- Verint's developers shall receive regular training on coding and design with respect to application security.

**2.6 Incident Management.** If Verint discovers or is notified of any accidental or intentional breaches of the security of Customer Data, or any unlawful or unauthorized uses or disclosures of Customer Data, Verint shall: (i) without undue delay, notify Customer, but in no event later than seventy-two (72) hours, or earlier if required by law, after actual knowledge of the security breach for the Customer Data, (ii) immediately, to the extent possible, secure the affected systems to prevent further or continuing breaches, (iii) promptly investigate such breach, perform a root cause analysis, and (iv) remediate the cause of such security breach on Customer Data and provide Customer with reasonable assurances that such breach will not recur. Notwithstanding the foregoing, Customer shall have sole responsibility for informing third parties, where warranted, of potential impact of such security breach with respect to the Customer Data.

**3 SAAS AND HOSTING SECURITY TERMS.** In addition to the terms and conditions in Section 2, the following terms and conditions shall apply to Verint's performance obligations with respect to any Hosted Subscription Services procured by Customer under this Agreement. To the extent of any conflict between the terms and conditions in this Section 3 and in Section 2, the terms and conditions in this Section 3 shall control solely with respect to Hosted Subscription Services.

**3.1 Access Controls.** Customer shall have access to Customer Data maintained within their applicable production instance. Customer shall be responsible for maintaining user access and security controls for users accessing the Hosted Subscription Services. Verint shall be responsible for restricting all other access to Customer Data residing within the production instance. For the avoidance of doubt, Verint has no obligation to verify that any user using Customer's account and password has Customer's authorization. Verint shall provide access on a need to know basis and shall review access rights of Verint Personnel at least annually. Verint's access controls shall include no less than the following:

- Verint shall enforce complex passwords using built in system settings of at least 8 characters. Verint shall require password changes at least every ninety (90) days. Verint administrators shall use multi-factor authentication for access to the production environment(s).
- Access to Verint's production environment(s) is controlled at four distinct hierarchical levels: the hosting partner level, the SaaS operations team level, the Verint network security level, and the application level. Access control is required for each of these levels to provide the optimal level of security for the solution.
- A Verint hosting partner's role is to design, deploy, secure, make available, and support the systems upon which Verint's SaaS solutions are installed and delivered to Verint's customers (end users). The hosting partners have primary control over the data centers, systems, and networks upon which Verint's SaaS solutions operate. The hosting partner provides Verint's SaaS operations team with the initial credentials required to access the hosted systems and support portals.

**3.2 Data Controls.** In its performance obligations with respect to Hosted Subscription Services, Verint does require access to Customer Data, and the following additional terms and conditions shall apply:

- Verint's security procedures shall require that any Customer Data stored by Verint only be stored using secure data encryption algorithms and key strengths of 128-bit symmetric and 1024-bit asymmetric or greater. Verint shall monitor Industry Standards and implement an action plan if key lengths in use can be compromised through commercially reasonable means.
- Verint will maintain a key management process that includes appropriate controls to limit access to private keys and a key revocation process. Private keys, and passwords shall not be stored on the same media as the data they protect.
- Verint will prohibit Verint Personnel from the download, extraction, storage or transmission of Customer Data through personally owned computers, laptops, tablet computers, cell phones, or similar personal electronic devices except where enrolled in Verint's Mobile Device Management (MDM), Information Rights Management (IRM), or other security programs. If personal computers or mobile devices are used to perform any part of the Hosted Subscription Services, Verint will encrypt all Customer Data on such mobile devices.
- Verint agrees that any and all electronic transmission or exchange of Customer Data shall be protected by a secure and encrypted means (e.g. HTTPS, PGP, S/MIME, SSH, SMTP encryption using TLS on gateway while sending emails).
- Customer Data stored as a part of the Hosted Subscription Services shall reside only on Verint production systems housed in Verint hosting partner data centers, unless noted in a SOW or required with respect to professional service engagements or performance of support services. Any storage of Customer Data on Verint premises is temporary and is used strictly for support and services

engagements. Once Customer Data on Verint premise has served its purpose, it shall be promptly destroyed in accordance to Verint's confidential data destruction procedures.

- Verint will abide by the requirements of European Economic Area and Swiss data protection law regarding the collection, use, transfer, retention, and other processing of Personal Data from the European Economic Area and Switzerland. Verint will ensure that transfers of Personal Data to a third country or an international organization are subject to appropriate safeguards as described in Article 46 of the GDPR and that such transfers and safeguards are documented according to Article 30(2) of the GDPR.

- Upon instruction of Customer or within thirty (30) days of termination of the Hosted Subscription Services, Verint shall destroy Customer Data in a manner that prevents commercially reasonable attempts to restore that Customer Data. Verint shall use NIST 800-88 as guidance for performing data destruction.

**3.3 Operational Controls.** In its performance of Hosted Subscription Services, Verint shall maintain operational controls sufficient to enable Verint's satisfaction of its performance obligations in this Section 3, including, without limitation, the following:

- Verint will utilize up-to-date and comprehensive virus and malware protection capabilities, and commercially reasonable practices, including detection, scanning and removal of known viruses, worms and other malware on the Verint's hosting systems. These virus protection capabilities will be in force on all computers and/or devices utilized in connection with the technology services, as well as on all data files or other transfers that have access or are connected to Verint's hosting system.

- If a virus, worm or other malware causes a loss of operational efficiency or loss of data, Verint will mitigate losses and restore data from the last virus free backup to the extent practicable.

- Verint shall obligate its hosting partners to provide a multiple layered security approach. This shall include perimeter firewalls, DMZ, one or more internal network segments, and network intrusion detection monitors for attempted intrusion to the production environment. Network vulnerability scans shall be conducted regularly and issues addressed according to Industry Standard change control processes.

- Verint shall mitigate security vulnerabilities through the use of perimeter and host countermeasures such as intrusion prevention, web application firewall, IP address shunning, and other measures designed to prevent successful exploitation of vulnerabilities.

- Verint and its hosting partners shall proactively address security risks by applying released security patches, including, as example, Windows security patching and updates to patch known vulnerabilities in an applicable operating system. Patches shall be deployed to production via Verint's change management process. Verint shall test all patches in its test environment prior to release to production. If a patch degrades or disables the production environment, Verint shall continue to mitigate vulnerabilities until a patch is provided by the software or operating system manufacturer that does not degrade or disable production. Such mitigation efforts may include intrusion prevention, web application firewall, and other measures chosen by Verint to reduce likelihood or prevent successful access to Customer Data by an unauthorized party.

- Each month, Verint and its hosting partners shall schedule maintenance windows to perform data center, system, and application maintenance activities. Verint shall notify Customer in advance of any scheduled maintenance activity that is expected to disrupt the Hosted Subscription Services functionality.

- Verint shall retain security logs for a minimum of thirty (30) days online and ninety (90) days archived. Verint may retain logs for a longer period at its sole discretion.

**3.4 Availability Controls.** With respect to Hosted Subscription Services:

- Verint shall maintain business continuity and disaster recovery plans specific to its Hosted Subscription Services, and shall include data center failover configurations.

- Verint shall maintain a backup of all Customer Data that Verint is required to retain as a part of the Hosted Subscription Services. In the event the Customer Data becomes corrupt, Verint shall use commercially reasonable efforts to remediate and recover such corrupt data.

**3.5 Audit.** Except as otherwise required under local laws or regulations applicable to the Hosted Subscription Services, the following terms and conditions shall apply. With respect to Verint operations applicable to Hosted Subscription Services, Verint conducts internal and external 3rd party audits on a regularly scheduled basis. Verint shall correct any material deficiencies noted in an audit report within a commercially reasonable timeframe and shall request auditor to provide an updated report reflecting successful corrective actions. Customer may request executive summaries of these audit reports no more than annually. Verint reserves the right to redact Confidential Information from the reports prior to sharing.

**4 ATTESTATIONS OF COMPLIANCE.** Verint shall provide attestation of compliance to the terms in this Annex. Requests shall be made in writing through the Account Executive assigned to Customer. Verint shall provide its Santa Fe Group Standard Information

Gathering Questionnaire applicable to the services provided to Customer. Verint shall respond to such attestation requests within thirty (30) business days of receipt.
